Contract No. BB-300, Itel Corporation, Items 2 and 3

1. We have received the final reports on Items 2 and 3 of the subject contract. These computer programming reports have been reviewed and are completely satisfactory in every respect. [REDACTED] has a well-qualified and quite capable computer programming staff.

25X1A

2. It is of incidental interest to note that BRC delivers 25 copies of each report to Itel. I believe that you receive ten of each, of which I get eight. After distributing 4 to the Air Force and one to the Army, I have 3 left. This seems to be a relatively small percentage, especially considering the fact that we are the ones faced primarily with the problem of using the reports.
